**MRS. FDR, ADLAI  
ARE A HELP TO JFK**

President Kennedy is fortunate indeed to have on his side such staunch anti-Communists as Adlai Stevenson, Eleanor Roosevelt, Chester Bowles, and Prof. Galbraith.

With these undeviating upholders of America representing us in high places, Americans can rest assured that the best interests of their country will be promoted at home and abroad. Now if he can only persuade Gen. Telford Taylor to head the CIA, we'll have even more reason to feel secure.
